

10-11-2003 - Something that should be simple is getting out of hand before it even gets started good. TOO MANY EXCEPTIONS!! Somebody lost sight of the purpose of the Do-Not-Call list and that was to stop the disturbances to the people who DO NOT WANT TO BE DISTURBED... LIKE MYSELF. I really could care less if the caller is a politician, a radio/tv station, a charitable organization or any of the other exclusions. The simple fact is my phone rang and the call was a nuisance as I have so indicated by my signing the Do-Not-Call Registry. There has been a marked decrease in the number of nuisance calls I get but as best I can tell nobody has done anything with the recorded calls being left on my answering machine. Like the one I got this morning from a William Banks with the "Debt Management Foundation Services", "a 50163 Non-Profit Agency at 1-800-9....." his speech was so fast it was hard to understand so there may be flaws in the above quote. I won't bother writing any more. Just to think about this abuse and the pork barrel politics that goes with it sends my blood pressure up and it's high enough already. I hope one day you get to be 66, not feeling too good, trying to catch a much needed afternoon nap and get two of these nuisance calls back to back!!

Yours truly,

A.F. Hutson
